RATED SWITCH

About This Product

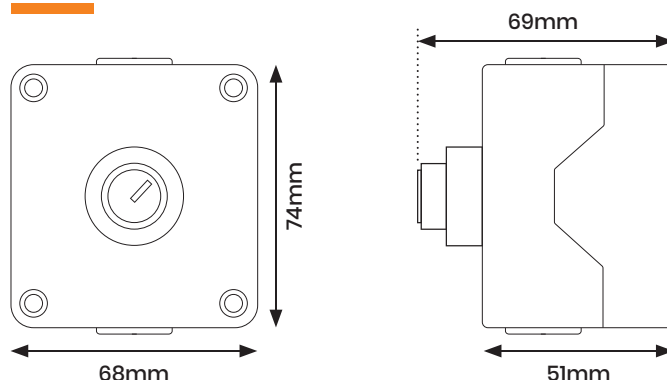

The Ventec RKS Roof Access Key Switch is a 2 position selector switch designed to allow the manual opening or closing of an electric roof hatch, vent or skylight for maintenance or roof access purposes.

The required key is removable in both CLOSE and OPEN positions – therefore, by removing the key, a user can reduce the risk of closure while on the roof top. Supplied with 2 keys.

Product Highlights

- Metal casing with powder coated finish
- Top and bottom cable entry holes

Dimensions
